

Expanding Gate

Also known as Scissor, Collapsing, or Accordion Gate

A good all-purpose gate because it fits a 32" or 36" opening. And it does not matter if it is needed for a right hand or left hand door. You just turn the Expanding Gate over!

Designed to mount on the inside of the trailer. It is the easiest gate to install. Comes with a discus style lock.

A Double Expanding Gate is available for the sales office type trailer that has a small recessed porch area. The Double Expanding Gate will cover an area up to 10 feet wide and 7 ½ feet tall. The Double X-Gate installs across the porch area on the outside of the trailer.
